**Explanation of Tenth District** Committee.

#### DIDN'T HAVE TIME ENOUGH

No Desire to Be in a Position of Contumacy in its Relations With the State Committee-Document in Full.

The Democratic Committee of the Tenth Senatorial District, which held its primary last Saturday and permitted voters to vote by ballot, after the State Central Democratic Committee had declared that plan of primary irregular, make an claborate statement justifying their action and explaining the grounds on which it was taken in some detail. In justification of its action the Senatorial Committee claims that the State Committee has required it to do an impossible bing, in that the time that must clause between the receipt of notification of the Central Committee's action and the time within which the statute law requires that names shall be given in to be placed upon the official ballot will not leave the elighty days necessary for the sixty days notice of primary required by the party law and the twenty days' notice of candidacy exacted by the statutes. The committee expressly disclaims any desire or intention to be put in any position of contunacy in its relations to the State Central Committee, and declares that if action had been taken in time this committee committee. primary last Saturday and permitted vot tion had been taken in time this commit-tee would have called a new primary in accordance with the requirements o In accordance with the requirements of the State Committee. In refusing to call another primary at this late date this committee must plead the impossibility of the command and the paramount law of party self-preservation.

Further on the committee criticises Judge Newman and Senator Lupton, and characterizes Sonator Lupton as the father of the plan against which he afterwards professed.

CLAIMED ITS REGULARITY.

The Democratic Executive Committee of Frederick county met last Fridny, the day before the primary, and deedded that the primary called by it for next day for the nomination of candidates to be voted for at the November election was regular. The regularity of the primary, it is further stated, was decSed by the Executive Committee by a vote of ten to three, thirteen of the fifteen members being present.

The committee adopted a long resolution, stating that all arrangements for a primary had been made, and that owing to a lack of any information from the State Committee as ic any plan adopted by them, the time was then too short to make any change in the plan adopted by the senatorial committee, and that the present plan be sustained.

It was on August 12th, four days after the State Committee's action, that the Frederick county committee was notified of such action, and a meeting of the full committee was called for the 14th. Thereupon, because the State Committee, or a few members who assembled in Richmond on Saturday (the 8th), required an impossible thing, the following statement was drafted for the information of the State Committee and the voters of the senatorial district.

THE EXPLANATION.

It is understood that the resolutions were drawn by Mr. R. E. Byrd, and as presenting one view of the case, which may outlaw the nominees of the primary, this explanatory statement is printed in full:

(1) The State Central Committee, after declaring the primary called for to-morrow, August 15th, llegal, requires the reveral local committees to call a Senatorial primary in accordance with the primary election plan adopted by the State Central Committee, that is impossible for the following reasons: The said State plan provides that there must be sirtly days' notice of a primary held in necordance with its provisions. The statute law of the State provides that any candidate to be voted on in the fall election must give in his name twenty days before the election which takes place on the 3d of on the official ballot, and then all withdrawing but the winner, is impracticable,
because the Democratic voter in November would be confronted by a ballot containing the names of several Democratic
andidates, which would involve him in
hopeless confusion, especially as the result of the primary would only be known
a few days before the election.

BUT SEVEN DAYS.

The successful candidate would then
have only seven days in which to canvaes

develop. The Democrats of Shenandoah county will to-morrow, the 15th, select their candidates for all the county offees. The Democratic candidates will at once begin their war with the Republican noninees! While this is going on there will be another war within the Democratic party in Shenandoah county between the Senatorial candidate for the Democratic nomination, which contest would last until seven days before the election. This would produce a condition of affairs which spells R-U-I-N for the Democratic party in Shenandoah county.

Section 2.—This committee must assume that the State Central Committee at its meeting last Saturday was not informed of the se facts or did not appreciate the significance of these results, otherwise the Central Committee would not have endeavored to force the local committees of these counties into a situation which means certain Democratic disaster in Shenandoah county, and a condition of demoralization and dismay in Frederick county. This committee is fortified in this opinion because neither the chairmen of the Democratic committees of Shenandoah and Frederick counties, nor the chairman of the committee of the city of Winchester, nor Judge Tavenner, were notified that the State Central Committee to the state of the sturday less. were notified that the State Central Committee were to meet on Saturday last. Senator Lupton was there, however, and Judge, Newman was there, and as a member of the State Central Committee, offered the resolution condemning the primary under which, as the chief friend and supporter of Senator Lupton, he had been until very recently electionering in Senator Lupton's behalf. This committee is persuaded that the State Central Committee would not have adopted Judge Newman's resolution if they had heard a fair statement of the case.

Section 4.—This committee feels that it should state its reasons for making the call now complained of by the State Central Committee: First, the call is consistent with its immemorial usage, and when on the 30th day of June this committee met for the purpose of arranging the primaries, at which the Democratic candidates for the several offices should be selected, they did no more than what was customary and usual in the Democratic party, as to the participation of all who are willing to support the nominess. The committee did more; it had a full conference, with the members of the ness. The committee did more; it had a full conference, with the members of the City Committee, of Winchester, and its individual members conferred with all the candidates for the several offices, and especially with Senator Lupton. In fact, the primary plan adopted by this committee, was in fact, Senator Lupton's plan written out by him in his own handwriting, and typewritten copies of the same were furnished by him to several members of the committee.

ACCEPTABLE TO ALL.

ACCEPTABLE TO ALL.

This plan being acceptable to all the candidates, and especially to Senator Lupton, its father, this committee proclaimed it. All the candidates, including Senator Lupton, ratified the call, and put in their names as required by the plan, and all except Senator Lupton are to this day abiding by the nimary to be held toabiding by the primary to be held to-morrow, and Senator Lupton himself, as-sisted by Judge Newman, until very late-

abiding by the primary to be held to morrow, and Senator Lupton himself, assisted by Judge Newman, until very laterly, made an active canvase under this plan, seeking the nomination under the terms of its provisions.

Section 5.—This committee would in holding the senatorial primary plan invalid, necessarily hold at the same time that the county primary plan is also invalid, thus disorganizing the party in Frederick county and invalidating the title of every Democratic nominee nominated by to-morrow's primary. This committe is unwilling to do this, and in this connection this committee expresses its surprise that the primary plan for the tenth Senatorial District is especially selected for condemnation by the State Central Committee, when other primaries equally obnoxious to the State plan, have been passed over without criticism. This is especially true of the primaries held in Buckingham and Fluvanna counties of the Eighteenth Senatorial District. in Buckingham and Fluvanna counties of the Eighteenth Senatorial District

**COUNTY IS** FOR PURITY

Must Observe the Barksdale Law in Henrico.

#### ACTION OF THE COMMITTEE

Will Take Steps to Rigidly Enforce this Law-Resolution Adopted-The Voting Will Be Under the New Registration.

Among the matters of interest and importance transacted yesterday by the Democratic Committee in a lengthy session held at the courthouse, none was of greater interest and signifi-cance than the adoption of a paper of cance than the adoption of a paper of the nature of a manifesto, declaring point-edly that the rapidly approaching primary must conform strictly and entirely with the Barksdale pure election law. The committee in effect constitutes itself an instrumentality for the rigid enforcement of the new law in all its provisions. It pledges itself to use the utmost endeavors to see that there is a strict compliance with the statute; it announces its intention to take cognizance of any and all violations of the law; it, declares its determination to secure the establishment of any violation brought to its attention, and finally to see that the guilty candidate is duly punished according to law. The decided stand taken by the committee is exceedingly interesting and important in its bearings upon the primary, in which so much interest is being taken.

The resolution, which was offered by Committeeman Jones, is as follows:
"Resolved, That this committee pledges itself to use its utmost efforts in seeing that the provisions of the Barksdale pure election law are strictly compiled with in the primary to be held in this county on September 3d next; that it declares its purpose to take cognizance of any and all violations of this law, and upon proof brught to its attention that any candidate has been using such influence in his behalf, clearly in conflict with the provisions of the said law, that this committee will do its utmost to have such fact clearly established, and the candidate guilty thereof punished according to law."

WILL GET THE BOOKS. the nature of a manifesto, declaring point-

clearly established, and the candidate guilty thereof punished according to law."

WULL GET THE BOOKS.

Another matter of interest before the committee was the question of the books to be used in the primary. It seems that gome difficulty has arisen in the city and that Judge Witt may decline to give the judges access to the new registration books, in which case they will have to use those of the old enrolment. This will make a very appreciable difference, since it will permit the voting of several thousand people not in the new registration.

since it will permit the voting of the thousand people not in the new registration.

In view of the question which has arisen in Richmond, Mr. Thomas W. Gardner, candidate for the House of Delegates, brought the matter to the attention of the committee yesterday, feeling that some trouble of a similar sort might arise at the last moment in Henrico. The registrars could not be forced to give up the books and there might be confusion. Recourse was had to the law and Judge Wickham said there would be no difficulty; that the law in Richmond and Henrico was different, and that the new books would be used in the county. The judges of a general ejection would have the right to the new books, and under the law for Henrico judges of the primary have the same rights and privileges as the judges of the general election. So reads the fifth section of the act: "The persons so appointed for the purpose of conducting the said primary election shall have the rights, powers and privileges, and be subject to all the penalties of judges of the general election."

The polls will be opened in a number of the precincts next week, and in all of

tion."

The polls will be opened in a number of the precincts next week, and in all of them before the primary, for the late registration recently called for. The candidates are hustling to keep up with the new voters who will be admitted.

JUDGES APPOINTED.

All the candidates appeared at the courthouse yesterday and paid the assessment. The scene was a busy one for a long time in the committee room.

Agreement was soon reached over the judges who are to serve in the primary.

A big meeting was held Tuesday night at Toney's Hall, in Fairfield. There will be another on Thursday at Hardin's Shop, one on the following Tuesday at the same place, and one on the Thursday after that at Toney's again. On Friday night next there will be speaking at Cifford's Hall, near the National Cemetery.

Terry's Hall, No. 1500 Ashland Street, in Tuckahoe, is a favorite place for the candidates. Several big meetings have been held there recently. There will be another to-morrow night. In addition to the speaking, there will be a balloon ascension.

### WOULD BURN THEM IF THEY DARED

So Says Dr. S. A. Steel of Pope and Cardinal-Wants Negroes to Go to Boston.

In a letter of the Christian Advocate of this week the Rev. Dr. S. A. Steel, formerly pastor of Centenary Methodist Church, of this city, now of Lumberton, Miss., writes of many things, including two of very considerable interest.

Following the lead of the editor of the Advocate himself, Dr. Steel objects strentously to the widespread praise of the late lamented Pope Leo. He says he is disgusted with the amount of space given by the secular papers to the Pontiff. He thinks the attention paid to the death of one Pope and the election of another is cut of all proportion to the importance of the Romish Church in America. He looks with profound suspicion on the flattering attentions to Rome in the highest official circles. President Roosevelt's messages to the Vatican are un-American and wrong. Pope Leo, for his personal qualities, enjoyed the respect of the world, but he was an invincible enemy to our institutions. Dr. Steel generally depreceded the stirc caused by the death of out Institutions. Dr. Steel generally deprecates the stir caused by the death of the Pope and the interest taken in the church. Here is the grand climax to his

articles:
"If Plus X, and Cardinal Gibbons had
their way they would burn Methodists
and Baptists at the stake to-day, as their
predecessors did in England a few hunand Baptists at the stake to-day, as their predecessors did in England a few hundred years ago. Rome does not change."

By way of conclusion to his letter Dr. Steel has something to say about the negro question. Says he: "I see President Roosevelt's friend, Booker Washington, was rudely treated in Boston. Poor Booker! We have cut loose from him down here because he teaches the negroes to aspire after social equality; they draw razors on him in Boston because he don't come out and say so. Dr. Parkhurst, of Zlon's Herald, says the Boston people are mortifled most of all that such disrespect was shown to the house of God. The Doctor don't know the darky. All places look alike to him. I am glad the 'brother in black' is moving 'North. Contact will teach our friends up there some things hard to learn otherwise. I am heartly in favor of the emigration of the negroespecially to Boston. Washington ought to transport the whole Tuskegee plant to New England, where the people are in sympathy with his social equality ideals. If they don't stop mobbing negroes in Lincoin'st State, however, I am afraid Sambo will find out the truth about the matter, and conclude that after all Dixie is the best place for 'niggers.'"
